

What Trump's Project 2025 Means For You

If You Are a Woman

- You may lose access to abortion care no matter where in the United States you live.
- There will be no exceptions for rape, incest, or your life and health.
- You may lose access to birth control and IVF.
- You may face jail time if you miscarry a fetus.
- You may be tied to a bad marriage or abusive spouse with very little recourse.

If You Are An Older Person

- The safety net for your golden years will likely be shredded. **Social security funds** may be privatized and traditional **Medicare** may either be cut significantly or eliminated altogether.
- The part of the Inflation Reduction Act that allowed the government to **cap prescription drug costs for seniors** could be repealed. The cost of your medications may once again surge.

If You Are A Veteran

- You may qualify for fewer disability benefits from the government, as greater numbers of health conditions associated with combat are classified as "unrelated to service."
- More and more of your VA-based medical services may be transitioned to the already overburdened private health care sector.

If You Are An American

- You will likely **pay much higher taxes** while a handful of billionaires gets major tax breaks.
- The already shaky ladder to home ownership, higher education, and financial stability will likely be pulled out from everyone but a fortunate few.
- Your ability to negotiate for higher wages as part of a union may be eliminated altogether.
- **The Affordable Care Act (ACA) will most likely be repealed.** If you are one of the 45 million people with health insurance through the ACA, you could lose the only health insurance you can afford.
- You could be one of 100 million+ people with pre-existing health conditions who could lose essential protections against discrimination.
- You will almost certainly **lose the right to vote** in anything but a sham election.
- **Your life could be under threat on a daily basis.** Under-regulated foods and drugs, viruses running rampant, an unchecked number of guns in our streets, and a police force militarized against anyone who speaks up against Trump or Project 2025 may become our daily realities.
- **The world you live in will become far less safe and stable,** as our international alliances crumble, rogue nations start wars, and our poisoned, rapidly warming environment gives rise to more frequent life-threatening disasters, climate migration, resource depletion, starvation, and illness.

What Trump's Project 2025 Means For You

(continued)

If You Are A Black or Brown Person

- Programs that can help reduce the impact of discrimination on your life may be gutted.
- Your history may be whitewashed or erased.
- The police may be further militarized and directed to target your communities.
- If you are undocumented – or even if **you are documented** – you could be separated from your family, sent to an internment camp, or deported.
- If you were brought to this country as a child by your parents and know no other home, you could still be subject to this same treatment.

If You Are LGBTQIA+

- Your marriage may be invalidated.
- Your family may no longer be recognized.
- You may be prohibited from adopting children.
- You may lose access to gender-affirming health care, civil rights protections, and the option to serve in the military if you are trans.

If You Are Not An Evangelical Christian

- You may be subject to religious bias and coercion in both private **and** public spaces.
- Jewish people and Muslims in particular will likely face dangerous levels of discrimination.

If You Are A Younger Person

- You will continue to **face gun threats at school**.
- Funds for your local public school may be diverted to religious schools. You may also face religious indoctrination in public schools.
- You may be forced to take a military entrance exam as a **public high school student**.
- There may be limitations in the books you can read – and distortions in the history and science that you are taught – at your school.
- There may be **no student loan debt relief or forgiveness** for you. Your monthly student loan payments could even double or triple.

BOTTOM LINE: Under Trump's Project 2025, only conservative white males, billionaires and evangelical Christians are safe. **The rest of us are in danger.**
